Work Experience

Web digital twin kota – BRIN (Badan Riset dan Inovasi Nasional)

Aug 2025 – Oct 2024

Designed and developed the UI/UX for a city-scale Digital Twin web platform that visualizes flood runoff height simulations and identifies impacted areas in real-time. The interface focuses on clarity, interactivity, and data-driven insights to support urban planning and disaster mitigation efforts.

BoooomBlog "Aplikasi Blogging"

2025

May 2025 – Jun

BoooomBlog is a mobile blogging app with a Laravel backend, allowing users to create, read, update, and delete articles. As a Full-Stack Developer, I built the RESTful API with Laravel, developed the Android app using Jetpack Compose, and implemented user authentication along with full article management features.

Organization

Google Developer on Campus [Universitas Pasundan]

Curriculum & Learning Division Member – UI/UX Oct 2024 – Present

I created and developed UI/UX learning materials for club members, covering key topics like user research, wireframing, and prototyping. I also led study groups and collaborated with the curriculum team to design a syllabus aligned with current industry trends.
